

# DO YOU KNOW THE INVENTORY IN YOUR SEEDER?

- Ensure even seed distribution during hopper filling
- Load required amount to ensure enough seed to plant a field or farm
- Register seed used on a single field or farm

GT400

**Digi-Star** 

Providing Measuring Solutions to Optimize Agricultural Performance

# DO YOU KNOW THE INVENTORY IN YOUR SEEDER?

- Ensure even seed distribution between hopper filling
- Load required amount to ensure enough seed for planting and reduce clean-out time for changing varieties
- Compare kilograms with hectares planted for accurate population
- Measure seed used between farms and partnerships
- Perform quick and easy installation of scale system

## MODEL GT 400

## MODEL GT 460

Convenient  
"Start • Stop" feature  
(patent pending)  
For equal filling of  
left/right hopper  
or Refuge

View and change  
the 6 character
