Bulletin #: PB003

Product Changes:

Due to requests from our SW customers we are now going to offer an easier way to connect the power cord to either a battery or our AC/DC power cube by making the following changes:

Effective immediately:

1. The power cord ends on all Stock Weigh Indicators (includes EZ II SW and Model 500 SW) will now have two (2) .187 insulated Spade Lug Connectors (Female) assembled on them and includes the 403527 battery clip set, for quick connect to a 12 volt battery. (See Picture 1)
2. The AC/DC power cube (New P/N 403526) will be supplied with two (2) .187 insulated Spade Lug Connectors (Male) assembled on them. (See picture 2)

P/N 403527 Battery Clip Set
Retail \$12.00 (Max Discount 30%)

1)

P/N 403526 AC/DC power cube
Retail \$53.00 (Max discount 30%)

2)

PLEASE NOTE: The standard Power supply P/N 146030 is still available – Retail \$ 41.00 (Max Discount 30%)

Product Additions:

To make it easier for our customers to order we have added Kit Numbers to the new “Wrangler System” and “Wrangler Elite” packages along with some additional cost savings (it is cheaper to order the kit than individual components).

P/N 403535 “The Wrangler System” Price \$1269.00

P/N 403536 “The Wrangler Elite” Price \$1739.00

Please see enclosed literature for more complete descriptions of these two hot selling items.
